The **Supplier's Declaration** should:

- be printed on your **organisation letterhead paper**,
- quote the **Airway Bill Number**, and
- **be signed** by the sender.

It is absolutely essential that you describe your samples accurately on the Supplier's Declaration as:  
"purified DNA from wheat, no import permit required under Condition C10555 of AQIS regulations"  
Or

"purified DNA from barley, no import permit required under Condition C10555 of AQIS regulations"  
as the case may be.

It is also critical that you describe your samples accurately on the Air Way Bill, where space is more limited; please describe your samples as "purified DNA from (species), AQIS Condition C10555".

On these documents, do **NOT** use the words PLANT or PLANT SAMPLES without mentioning **Purified DNA**.

Place all the paperwork in an envelope fixed to the **OUTSIDE** of the parcel, marked “Quarantine and Customs documentation”.

**Include a pro forma invoice, on your organisation's letterhead stating the value of each plate of 96 samples at 20 USD or Euros or AUD as you wish.**

Do **NOT** include the Triticarte service specification with the Quarantine and Customs papers on the outside of the box.

Please make sure Eric Huttner's phone number +61 2 61227314 is legibly written on the AWB.

Please email to us the name of the courier company (**including its Australian agent**) and the tracking number when you ship.
